### La Guerra a Nuestra Fe, Salvador E. (Henry) Pareja

(English translation follows)

Somos Latinos, orgullosos de ser miembros de BREC, orgullosos de ser Republicanos y orgullosos de ser Americanos. Como la mayoría de la comunidad latina, somos Católicos y/o Cristianos.

Una y otra vez estamos más y más sorprendidos y alarmados por las ofensas a nuestras creencias y libertad de religión del partido demócrata y la administración de Biden. Desde el principio de este gobierno han sucedido tantos eventos que indican que el partido demócrata ha abandonado los principios judeocristianos en que esta gran república fue fundada.

Comenzó a ser aún más aparente en el 2021, cuando las iglesias, misas y eventos públicos religiosos fueron prohibidos por las autoridades locales y estatales con la excusa del virus COVID. Incluso en reuniones al aire libre, manteniendo la distancia y usando mascarás, "pero protestas pacíficas estaban permitidas", gracias a Dios vivimos en Florida, donde las normas fueron razonables.

Después de que el Departamento de Justicia calificó a los Católicos como terroristas domésticos, agentes secretos del FBI fueron asignados a parroquias e iglesias en busca de cazar extremistas y

aparentemente el usar Latín en la misa es considerado ser radical-tradicionalista ideología de la iglesia católica.

Encima tenemos la gran persecución de los que estamos en contra del aborto, pero lo peor es la fuerte e inmensa guerra del partido demócrata y la izquierda en contra del matrimonio, la familia y simplemente el respeto al nacimiento de un embarazo. En uno de los grandes esfuerzos para intimidar a la gente de fe y creencia en la vida y no el aborto, el FBI allanó una Casa Católica Pro-Vida, 25 agentes fuertemente armados a las 6:00 de la mañana, donde se encontraban siete niños en la casa. Al final no fueron acusados de ningún crimen después de que el Departamento de Justicia no quiso tomar el caso. Muy similar al caso de ahora en Manhattan.

Y uno de los últimos ataques que me motivo a escribir este artículo fue la increíble y endemoniada celebración del Día para la Visibilidad de los Transformistas (Transgender Visibility Day) en la Casa Blanca en el día más sagrado para todos Católicos y Cristianos en el mundo entero (Domingo de Resurrección). No solo celebraron esa perversa fiesta, sino que además promovieron una gran campaña de comunicación de dicho evento. Además, ese día entonces publicaban en las redes sociales las fotos de los Transformistas que habían revelado sus senos en el jardín de la Casa Blanca y videos de empleados teniendo relaciones sexuales en las salas de conferencias del Senado. Todo esto es muy desalentador. Hiere muchísimo tener una administración tan perversa.

Líderes del Partido Demócrata como Biden y Pelosi profesan ser devotos católicos y aun así apoyan el aborto sin límites o consideración al derecho a la vida de ese feto y criatura de Dios. Esos y muchos otros dicen ser católicos solo para engañar y obtener votos. Es solo política sucia. ¡¡¡Mentirosos!!!

Por eso es que es tan importante que todos nosotros, los Latinos, votemos por cambios en nuestro gobierno. Votar en contra de todos estos políticos que se inclinan hacia el comunismo y que denigran nuestras creencias religiosas. El Partido Republicano es donde encontramos resguardo y esperanza, la creencia de los auténticos principios y valores, incluyendo el mejor y más importante, el que los Estados Unidos de Norteamérica fueron creados como una República, una Nación según Dios (under God).

Y a los miembros de la comunidad Judía Latina..., por favor, sepan que estamos con ustedes a su lado y con todo nuestro apoyo. Por favor, pídanle a su comunidad judía que vengan al partido político que felizmente los recibe y hace parte de nuestra gran comunidad "Nosotros La Gente", "we The People".

Que Dios los Bendiga y que Dios Bendiga a Los Estados Unidos.

We are Latinos, proud to be members of BREC, proud to be Republicans, and proud to be Americans. Like most of the Latino community, we are Catholic and/or Christian.

We are increasingly dismayed by the affronts to our belief system by Democrats and the Biden administration. Over the past four years there have been events that indicate the leadership class of the Democrat Party has abandoned the Judeo-Christian values this great Country was founded on.

It started to become apparent in 2021 when religious gatherings were banned by local and state governments due to COVID. Even gatherings that were done with recommended social distancing or that were held outside with masks were banned. However, "peaceful" protests were OK.... We are grateful we live in Florida and that gathering protocols were reasonable.

Then the Department of Justice identified Catholics as Domestic terrorists. Undercover FBI agents were placed in churches to ferret out extremists. Apparently holding Mass in Latin is considered radical-traditionalist Catholic ideology.

Then there's the persecution of Pro-Life activists. In an effort to intimidate people of faith and pro-life Americans, the FBI raided a Pro-Life Catholic's house with 25 agents and automatic weapons at 6:00 a.m. and there were 7 children in the house. He was found not guilty. Of course these charges were brought by the DOJ after the local jurisdiction passed on the case. Similar to the case going on in Manhattan.

The last straw, and what prompted this article, is the promotion of Transgender Visibility Day on Easter, the most Holy holiday for Christians. The White House did not just issue an acknowledgement of the Transgender Visibility day, they conducted a multi-day communications campaign. Couple that with people posing topless on the White House lawn and published videos of staffers having sex in Senate conference rooms is disheartening. Having such a perverse administration hurts deeply.

Leaders of the Democratic Party, like Biden and Pelosi, profess themselves as devote Catholics, yet support abortion without limit or consideration for the right to life of the fetus. They, like many others that claim to be Catholic, just do so for your vote. It is just dirty Politics. Liars!!!

This is why it is important for all Hispanics to vote for a change in our government. Vote against progressive, Communist leaning politicians who denigrate our religious beliefs. The Republican Party is where we find a home that is for "We the People" and that follows the belief that The United States of America was created and is one nation "under God".

And to the members of the Jewish faith who are Hispanic - understand that we stand with you and to call on your community to walk to a political party that will embrace your faith.

God Bless you all and God Bless America.

**Election Integrity, Only Eligible Citizens Vote,  
Wayne Twiddy**

In a recent announcement during his visit to Mar-a-Lago, Speaker Michael Johnson highlighted the critical need for legislation to safeguard election integrity. The proposed House bill addresses the pressing concerns of Republican voters in Florida, focusing on key issues that threaten the integrity of our electoral process.

Over the past four years, the United States has experienced an unprecedented surge in illegal immigration, with an estimated 9 million encounters at the border. When accounting for individuals who successfully evade detection, this number climbs to an alarming 16 million. This influx of illegal immigrants poses significant challenges, including public safety concerns such as the smuggling of Fentanyl and an increase in violent crimes committed against innocent Americans.

One of the most alarming aspects of this situation is the lack of a mechanism to verify citizenship upon voter registration in Florida. While it is already against the law for non-citizens to vote, the absence of a verification process has allowed illegal immigrants to infiltrate our voter rolls. Speaker Johnson's proposed legislation seeks to address this critical gap by requiring proof of American citizenship for all

individuals registering to vote in federal elections. This measure is crucial for ensuring that only eligible citizens have the right to participate in our democratic process.

Additionally, the bill includes provisions to establish new safeguards, bring the United States in line with other democracies around the world, and mandate the removal of non-citizens from existing voter rolls. Furthermore, it grants states access to databases from the Department of Homeland Security (DHS) and the Social Security Administration (SSA) to facilitate this process.

With the number of illegal immigrants in our country at an all-time high, the threat of widespread voter fraud is real and cannot be ignored. Recent polls show that 78% of Americans consider preventing illegal immigrants from voting in our elections a top priority. It is imperative that we support narrowly focused legislation that directly addresses these critical issues. We demand precision and effectiveness, and a bill of broad scope risks diluting our message and support. While we acknowledge that passing this bill may face obstacles in the Senate and may not be signed by the President, it sends a strong message to the American people.

As concerned Republican voters, we must ensure that our voices are heard and that our elected representatives prioritize election integrity. The time to act is now, and we must hold our elected officials accountable for protecting the integrity of our electoral process.

**Do the Math,  
Dave Fosdick**

Last week Congress passed a \$95 billion foreign aid supplemental bill. This is in addition to the \$469 billion “mini-bus” bill that passed in March.

Set aside all your irritation that leverage is now lost to secure our border, your concern that Republicans are ceding their majority control of the house and the purse strings. Realize that Congress just took out a loan for you (us). We have to borrow the \$95 billion to secure other countries borders.

How much? Using liberally rounded numbers; 190 million taxpayers at \$500 apiece is \$95 billion dollars. For my household, that's \$1,000. But don't worry, they will make the minimum payments on the loan. Works real well with your credit card, right?

Democrat, Republican, UniParty, it doesn't matter. The majority of politicians spend too much. The Biden administration is the champion over-spender, but few politician's hands are clean. And this is not just a federal issue, local governments do their fair share.

As voters it is time to smarten up and elect the right people to serve us. Ask your candidate what they will do to balance the budget. Carefully review local amendments and referendums that appear on this year's ballots. Understand changes to tax rates, and initiatives that finance with bonds – that's deficit spending.
